

WRECK STARTS SALVOR AND PIRATE BATTLE

ONE-THIRD MORE FOR ALDERMEN

Sudden Foray Upsets Ten-to-one Ratio For Aldermanic Remuneration

Job Is Worth \$600 a Year, Say Leaders in Carrying the Day

Droning along towards the end of a listless two-hour discussion on routine affairs last night the City Council found itself suddenly on top of the sharp, jagged rocks of the aldermanic salary question.

Twice in estimates debate, before its budget was "fixed," the City Council had steered the frail barque of unity safely past the Scylla and the Charybdis of aldermanic and mayoral indemnities, and made the cause their own. Almost in its closing moments, while the expenditures by-law was up for final reading and passage, merely as a matter of form, Mr. Woodward made the cause their own. Almost in its closing moments, while the expenditures by-law was up for final reading and passage, merely as a matter of form, Mr. Woodward made the cause their own.

Gains Seen In Maritimes, Says Ralston

Minister of Defence Tells Commons of Increases in Industries

Ottawa, March 19.—Conditions in the Maritime Province showed a substantial improvement, Hon. J. L. Ralston, Minister of National Defence, told the House of Commons yesterday afternoon. There had been an increase of more than 50,000 tons in the production of coal in February, while steel production had increased by eighteen per cent. There was in prospect a further increase in steel, due to the demand that would be created by the construction of railway branch lines.

Col. Ralston, who was sharing in the budget debate, said that during the last six months of 1928 employment in Canada was at the highest point it had ever reached since Government statistics were kept.

The Minister of National Defence, who is member for Shelburne-Yamouche, N.S., answered a number of statements made by Hon. Hugh Guthrie, chief Conservative financial critic and member for South, Wellington, Ontario.

STUBBORN FIRE IN VANCOUVER

\$50,000 Loss Caused By Blaze in Commercial Building; Three-hour Fight

Vancouver, March 19.—Damage estimated at \$50,000 was caused by fire of unknown origin which broke out at 7 o'clock last evening in the building occupied by C. C. Snowdon, dealer in oils, and the Active Trading Company in the 900 block of Powell Street here. The loss is reported to be partly covered by insurance. Firemen fought the blaze for three hours before it was extinguished.

BRITISH FOOTBALL

London, March 19 (Canadian Press Cable).—Football games to-day resulted as follows:

SCOTLAND LEAGUE—FIRST DIVISION

Celtic 2, Motherwell 0.
Rangers 3, Dundee 2.
Dundee 3, Celtic 0.

Sinking and Trust Funds Draw Little Criticism In Report

No Suggestion of Wrongdoing But Method of Handling Them Not Correct; Hinchliffe Chosen As Spokesman to Answer Charges of Liberals On Interim Report of Government Auditors.

IS COMING HERE

ERNEST RAYMOND

author of "Tell England" and other noted books, who will be among the overseas delegates coming to Victoria for the National Council of Education conference on April 5 to 7.

Exterminate Rebels, Says Gen. Calles

Mexican Army Leader Says Movement to Be Completely Crushed Out

Mexico City, March 19.—Having captured the rebel stronghold of Torreon without a battle, Mexican federal forces to-day were pressing pursuit of the insurgents to the north. General Calles, commander-in-chief of the Government forces, promised a campaign of "extermination" against the rebels and was organizing a strong column to advance on Chihuahua, now the most important rebel base.

General Escobar, insurgent chief, who evacuated the city of Torreon yesterday, consolidated his position at Escalon, 100 miles to the north, and said he expected to engage the federalists in a major battle within twenty-four hours.

He asserted he had evacuated the city in Chihuahua State to spare the inhabitants the horrors of air raids, several of which over the week-end took four lives.

PEACE DISCUSSION

A request for peace terms was reported to have been received by President Portes Gil, who declared he would not treat with the insurgents. The rebel generals, however, denied suing for peace.

Evacuation in Chihuahua State, the new insurgent headquarters, is a virtual oasis in a desert region. The insurgents believe it stronger than Torreon.

The situation along the United States border was unchanged. Federal forces at Naco, in northern Sonora, were still entrenched, while both sides awaited developments in Chihuahua.

Rebel troops were reported advancing along the south coast again toward Mazatlan, where 2,000 federalists are holding the town.

NEW GRADING OF WHEAT FOR B.C. EXPORT IS NOW URGED

Ottawa, March 19.—The proposal that a separate set of standards for commercial grades be fixed for wheat going West for shipment from British Columbia has been made the subject of a meeting of the Commons committee on agriculture to-day.

At present the grades are fixed each year at Winnipeg by the Grain Standards Board and grain going both from Atlantic and Pacific ports are graded under the same standards.

Former President Is Now In the Field In Mexico

Leading the Mexican Government forces now pursuing the retreating rebels in Northern Mexico, is Gen. Plutarco Calles, seen in the centre of the picture above. He says it is to be a war of extermination.

HOUSE PLANS TO ADJOURN WEDNESDAY

Lieut.-Governor Expected to Prorogue Long Session at Noon

While it is just possible the Legislature may wind up its longest session of recent years to-night, prorogation has been tentatively fixed for noon to-morrow. It is planned to present the results of forty actual working days to the Lieutenant-Governor after a brief morning session, following the conclusion of the outstanding business this afternoon and to-night. The Milk Bill and the Water Act are the big questions still to be settled, all other legislation having been pressed to a stage where it requires only final reading.

MRS. SCOLLARD GIVEN DIVORCE

Bellingham Millionaire Wins Suit Against Husband in Washington Court

Bellingham, March 19.—A final divorce decree has been granted here to Mrs. Sarah E. Smith Scollard, millionaire, from George F. Scollard, B.C., charged with the theft from Mrs. Scollard of bonds and jewelry valued at nearly \$200,000. Mrs. Scollard is expected to resume her maiden name of Sarah E. Smith. The decree was granted yesterday.

Scollard was arrested in Victoria, March 6, the direction of Mrs. Scollard. Bonds and jewelry were found in his safety deposit vault. He was later taken to Vancouver.

The accusation confronting Scollard was said to be an aftermath of the sensational case of two years ago, when he was charged by his wife with the theft of \$800,000 in bonds. A part of the securities was found in Vancouver, B.C., safety deposit vaults after days of search by police. The Bellingham millionaire and her husband later adjusted their differences, but recent occurrences caused Mrs. Scollard to lay charges and sue for divorce.

CENSOR ACT PASSED WITH SOME CHANGE

The Motion Picture Censorship Bill passed peacefully through the Legislature last night after its stormy early stages. In the end the Opposition accepted Attorney-General Pooley's amendments to it as satisfactory and did not vote against it.

In effect, Mr. Pooley's amendment provides that when any newspaper is considered guilty of publishing salacious motion picture advertising it may be required to submit proof to the Board of Censors before publishing it. While Ian Mackenzie, Liberal of Vancouver, had given notice of amendments which would have excluded newspapers from the act altogether and left only motion picture theatres under it, he did not press his proposals but accepted Mr. Pooley's amendments as sufficient protection for the press.

HOSPITAL BOARD TO CUT PLANS

Only \$150,000 Now Found Available For New Work at Jubilee

Tenderers to Be Asked to Submit Alternative Bids For Lesser Requirements

No tender on the new nurses' home of the Royal Provincial Jubilee Hospital was accepted by the board of directors at the special meeting called last night to open the bids. Instead, the tenders were referred to the building and grounds committee with instructions to see what whittling of requirements could be achieved to bring the cost of the work down.

It was unofficially stated by members of the board to-day that the sum of \$150,000 is the maximum that is now available for the work planned. Tenderers had been invited on a different basis, including details in the specifications that may now have to be eliminated.

The directors, it is understood, are counting on the \$100,000 offered by the city and a sum of \$50,000 to be advanced by the Provincial Government to finance the new work.

Meanwhile the contractors who tendered on the nurses' home will be invited to submit alternative bids for lesser requirements, it is understood.

The building and grounds committee is to report back to the directors shortly with amended plans.

Hundreds At Funeral of Chief Justice

Impressive Scenes at State Obsequies of Hon. Gordon Hunter This Morning

Christ Church Cathedral was filled with a congregation representing the official life of British Columbia at the impressive services held this morning at 10:30 o'clock over the remains of Hon. Gordon Hunter, late Chief Justice of British Columbia, who passed away last Friday. Among those who attended the obsequies were His Honor the Lieutenant-Governor, members of the Provincial Cabinet, with the exception of Premier Tolmie who was unable to attend owing to indisposition, all the members of the Legislature, together with members of the judiciary, representatives of the naval and military forces, the Mayor and City Council, and delegations from other public bodies in Victoria and Vancouver.

Many beautiful floral tributes paid mute testimony to the widespread regret at the passing of one of the most distinguished public figures of the province.

(Concluded on page 13)

Vote On Liquor In P.E.I. Soon

Charlottetown, P.E.I., March 19.—Legislation will be submitted for a plebiscite this summer to determine whether the people of Prince Edward Island desire the present prohibition act or Government control of liquor, according to the Speech Read From the Throne read by Lieut.-Governor P. R. Hertz at the opening of the second session of the Forty-first General Assembly of the province this afternoon. Legislation will be introduced also for the prohibition of fraudulent sale of securities, to prevent spread of contagious diseases among foxes and other animals and regarding a board of commissioners for public utilities.

On crisis of withdrawal the charge of falsehood Mr. Hinchliffe remarked "withdraw" as he proceeded with his speech and drew a comment from Mr. Mackenzie that he did so with very bad grace.

Thief In Vancouver Takes Window Blinds

Vancouver, March 19.—Wholesale theft of window blinds was reported to police to-day by J. F. Taylor, Pandora Street, who stated a thief entered an empty house on East Third Avenue and removed nineteen blinds from the premises.

CONTEST PRIZE IS BIG \$1,000,000 SHIP ON REEF

Hundreds of Pirates Lurk Among Islands Nearby As Japanese Salvage Crew, With Gale Threatening, Tries to Save German Freighter Giessen, On Ledge in Yangtse Estuary; Gunboat Fails to Drive Off Outlaws.

Shanghai, March 19.—A three-cornered contest among wind and waves, Japanese salvagers and hundreds of Chinese pirates for a prize valued at more than \$1,000,000 is taking place off the China coast, eighty miles from Shanghai, within the Yangtse estuary. The prize consists of the North German Lloyd steamship Giessen, which was wrecked on Buton Rock last week.

After six days the vessel lies with its back broken astride a rocky ledge, but treacherous currents are proving an obstacle to salvage, while rough weather, which is likely to cause the ship to slip into deep water, is expected momentarily.

HUNDREDS OF PIRATES
The third factor contesting for the possession of the wreck consists of hundreds of Chinese pirates aboard scores of junks and fishing boats which have been swarming about the stricken steamship, word of the possible richest prize in years having mysteriously passed throughout the islands, which form a hotbed for sea rovers.

The salvagers notified the owners' agents in Shanghai they would be unable to achieve salvage unless the weather should moderate and gunboat protection should be provided.

A Chinese gunboat from the Nationalist navy headquarters at Shanghai proceeded to the scene, but was unable to drive off the pirates, who merely withdrew to the opposite side of an island when the boat fired a salvo in the air. It is now reported the gunboat is planning to return to Shanghai.

The physician explained that while death was not imminent the patient's hemorrhages should occur, the actress had very little chance of recovering.

She is the wife of Lew Cody, movie star.

Slight Gain Is Made By Foch

Temperature Remains Near Normal, But Pulse Irregular, Say Doctors

Paris, March 19.—Marshal Foch passed a quiet night and his general condition showed an improvement this morning. His temperature was 98.6 and his pulse 90.

It is in the discrepancy between the marshal's temperature, which remains near normal, and his pulse, which is irregular and has risen above 100, that his physicians see least encouragement. The fitful pulse is an indication of a weakening heart. Moreover, that organ recently reacted more and more weakly to stimulants. The last day or so the marshal has seemed more restive and he who was always so obedient to every behest of the doctors has refused sedatives several times recently.

He insisted yesterday on seeing his chief of staff, General Weygand. It is believed that only the fact that the marshal is very low led his physicians to make a special effort to calm him, having been denied practically all other visitors.

Among callers at his home was Rt. Hon. Winston Churchill, Chancellor of the Exchequer of Great Britain.

New E. and N. Branch Plans Are Approved

Railway Committee Sends Measure to House of Commons For Vote

Ottawa, March 19.—The Equi-malt & Naumalo Railway Company bill was approved by the railway committee of the Commons this morning.

The chief feature of the measure is the granting the company an extension of time for commencement of construction within the next two years of lines of railway, one from a point near Port Alberni to Comox Lake, B.C., and the other from a point near Stuart Lake to Hazelton, on the West Coast of Vancouver Island.

Construction must be completed within five years.

Forestry leaders plan new moves to prevent fires.

Seattle, March 19.—Fire the dreaded enemy of the logging companies, was reviewed from every angle of prevention and protection at the second day of session of the annual conference of the Western Forestry and Conservation Association here to-day. The conference will end to-morrow.

E. J. Kotok, director of the California forest experiment station, this afternoon outlined "the relative hazards of forest fires as a basis for insurance or intelligent protective organization." F. Napier Denison, superintendent of the Dominion Meteorological Service, discussed the possibility of predicting fire weather in advance.

NEW RULES FOR WORK OF POLICE

Inquiry Commission Suggests
Changes in London

London, March 19 (Canadian Press).—The Royal Commission which has been investigating police procedure in London since Miss Irene Savidge charged Scotland Yard with having used third degree methods to extract information from her has completed its report. It is understood the report exonerates the police from allegations of using third degree methods in dealing with suspected persons.

The case caused a sensation last Spring when Sir Leo Money, former M.P. and a journalist, was arrested in Hyde Park with Miss Irene Savidge on a charge of improper conduct.

New regulations for examination of witnesses are suggested, and the value of women police officers is emphasized by the commissioners, who apparently are satisfied generally with the manner in which crime investigation is carried out, and express the opinion that by adoption of their regulations incidents like the Savidge case may henceforth be avoided with reasonable certainty.

Wheat Grading Report Is Before Commons

Ottawa, March 19.—The interim report on protein content as a factor in wheat grading was tabled in the House of Commons yesterday afternoon. The report was prepared by a committee of the National Research Council on behalf of the council and the Board of Grain Commissioners.

The report contains a large amount of technical information on wheat grading, but states no conclusion as to the value of grading on the basis of protein content is reached.

SEEDING ON PRAIRIE

Winnipeg, March 19.—A report that a farmer in the Dalmead district has commenced seeding wheat has been received by J. M. McKay, general agricultural agent of the Canadian Pacific Railway for its western lines. Further reports state that disc work and harrowing are well advanced in the same district, and that disc operations are now under way south of Arrowwood, Alberta.

AS FAMED RESTAURATEUR WAS DEPOSED

Famed Childs restaurants have been snatched from the control of the man who founded them. Because the "meatless menus" which he decreed resulted in a falling off of profits, William Childs' below has been deposed as head of the nation-wide string of eating houses which bear his name. Above you see the restaurant in his farewell address to the stockholders, when he cried: "Take my 'child.' Duffie it. Do with it as you will. It is yours. I am through."

M.P.'S PROTEST MOTOR CAR RULE

London, March 19 (By George Hambleton, Staff Correspondent of the Canadian Press).—The motorist in this country drives along a highway of sorrows. He pays a tax on his automobile which would make Canadians despair. He pays high prices for his gas and complains are made that the road fund is used for less worthy purposes than the building of roads.

Now the harassed motorist finds he can not park his car with the windows closed and the door locked. At least if he does so he is likely to be fined as a case in the police court here demonstrated recently when two offending motorists came up for sentence.

There is apparently no remedy for the situation as an ailing in the House of Commons yesterday did not reveal one. Motorist after motorist bobbed up in angry protest against the rule. Could not the Ministry of Transportation change the regulations, they asked.

FOR MOVING PURPOSES

Right Hon. Wilfred W. Ashley, Minister of Transport, sympathized, but regretted he could do nothing to stop such prosecutions.

"But surely the Minister must know," came another protest, "that closed windows and locked doors are the simplest precautions against theft."

The Minister said he knew that, but he again regretfully observed that it might be necessary for any parked car to be moved in the absence of the owner or driver.

There were shouts of applause as Sir Harry Brittain, Conservative, demanded angrily: "Can the Minister name any other nation in the world in which where a motorist is never allowed to lock the door of his car?"

Mr. Ashley made no reply and the subsiding motorist thought apprehensively of the future.

TRUE BILL IN AUGER CASE

Ottawa, March 19.—Louis M. Auger, youthful member of the House of Commons for Prescott, Ont., charged with committing a serious offence against a girl, will face trial on two separate counts at the Spring sittings of the Supreme Court of Ontario, which opened here yesterday. After deliberating for three and one-half hours, the grand jury returned a true bill in the case early last night. The bill was divided into two counts, both of a criminal nature.

Possibility of the cases being proceeded with immediately was removed when Dr. Gordon Henderson, counsel for the accused, asked Mr. Justice Wright for authority to elect. This would afford counsel the opportunity of asking for trial by a judge without a jury. The judge decided to hear Dr. Henderson's argument on this point when the case was called.

The crown prosecutor concurred in the request of defence counsel that Auger be given separate trials on the two charges. Dr. Henderson said evidence on one of the charges could not otherwise be admissible.

A true bill was also returned by the grand jury against Bruno Messina, charged with the murder of his brother-in-law, Pietro Parrotta, by shooting.

Lake Champlain Gives Supply Of "Ice Fish"

Burlington, Vt. (By Mail).—"Ice fish" are perhaps peculiar to Lake Champlain. They are said to be a species of salt water smelt which came to the lake originally to spawn, but which remained to adapt itself to life in fresh water. Presence of the fish in the lake is responsible for a novel form of angling. Fishermen say the "ice fish" cannot be caught during the summer months and may be taken only when the lake is frozen over. Then shacks are erected on the ice, banked high with snow, and the interior is kept warm with small wood-burning stoves. The fisherman sits on a box holding a line in each hand. Each line is equipped with two hooks. The fish are found in places where the water is about a hundred feet deep, close to the bottom. One of the peculiarities of "ice fish" fishing is that the line used must not stretch. This is when the fisherman feels a nibble, he is able to snap the hook into the fish's mouth immediately. Otherwise the hooked smelt has escaped before the tug at the line is registered 100 feet below. A piece of salt pork is the usual bait used to catch the first fish. Then a piece about three inches long is cut from the side of the fish to serve as bait for the next victim. The "ice fish" are about a foot long and of a silvery color. The fish are found only where there is a noticeable current in the water, which lends support to the belief that the fish are really a species of salt water smelt.

ALL FROM A LOOSE STEERING GEAR!

The steering gear became loose on a gasoline truck which careened into a telephone and trolley pole. A wire broke and set fire to the gasoline tank. The flames caused other wires to snap. An adjacent pole fell on a passenger automobile, injuring seven persons. Burning gasoline steamed into sewers and blew up manholes. A bridge caught fire. Traffic was brought to a standstill. All this happened in Boston, and here you see firemen as they fought the blaze which had such varied consequences.

MOTOR FAILURE CAUSED DEATHS

Pilot of Newark, N.J., Plane
Explains Crash; Fourteen
Lost Lives

Newark, N.J., March 19.—Officials of the Colonial Airways, owners of the plane which carried fourteen to their deaths on a pleasure flight from Newark airport on Sunday, express the fullest confidence in the competency of the pilot and in the fitness of the plane before it left the field.

They were called to confer with Mayor Jerome T. Connelton yesterday in an effort to fix responsibility for the crash. One of the first questions asked W. E. Rowland, chief of operations of the Colonial Airways, concerned the ability of Lou Foote, pilot of the ship, who is in a serious condition in a Newark hospital, the only survivor.

Rowland said Pilot Foote was an experienced and competent flier with 2,500 hours of flying to his credit.

Rowland revealed that the 14-motored Ford monoplane had been officially inspected by the Department of Commerce inspectors once since the ship was licensed for transport service last November. The plane had been unofficially inspected by the Department of Commerce representative a day or two before the crash, he added, and had been inspected once or twice daily by company mechanics.

LOAD OF MACHINE

Rowland also submitted figures to show the plane had not been overloaded. He said it had a pilot and passenger capacity of 2,460 pounds, which would leave ample allowance for its cargo of fifteen. Foote weighed 184 pounds, he said, and the passengers he estimated weighed an average of 150 pounds each. To have overloaded the ship each passenger would have had to weigh more than 190 pounds, he said. Rowland would offer no theory for the cause of the crash.

MOTORS FAILED.

Before the mayor's investigation began, Foote, from his bed in St. James hospital, blamed failure of the motors for compelling him to seek a forced landing.

"Two of my motors went dead—the third wouldn't hold up, and I don't know what else happened," he said. When Foote took off with the fourteen passengers for the flight over New York City, he encountered "bumpy" air, which had compelled lighter planes to keep to the ground.

The ship failed to gain altitude and Foote had banked so that the wind was from the rear. The pilot then waved, witnesses said, the right and left wing motors faltering. The pilot attempted to reach a level place beyond a spur of the Central Railroad of New Jersey, but the ship struck a standing freight car as a gust of wind suddenly lurched it to earth. The passengers were crushed in the front part of the cabin. Foote and Deimont Parsons, who was riding beside him in the cockpit, were thrown clear. Parsons died yesterday. The rest were killed instantly.

NEW PENALTIES ARE SUGGESTED

Hit-and-run Motorists Too
Numerous, Church, Conser-
vative, Tells Commons

Ottawa, March 19.—Hit and run drivers are aimed at in a private bill introduced in the House of Commons yesterday afternoon, by T. L. Church, Conservative, Toronto.

The increasing loss of life throughout Canada of late years caused by motor cars and the number killed by hit and run drivers have been causes of numerous complaints.

Mr. Church's measure would include the following penalties under the Criminal Code:

Five years imprisonment and a fine of \$1,000 for a person found guilty of driving a car in a furious or reckless manner causing an accident by which an individual suffers injury or bodily harm.

Two years imprisonment or a fine not exceeding \$500, or both fine and imprisonment, for anyone causing through furious or reckless driving, an accident to any person and failing to stop his automobile, or for failing to render every assistance in his power to those injured by him.

Two years imprisonment or a fine of \$500, or both fine and imprisonment, for a person guilty of driving, whether prearranged or not, on a bet or wager, or for inciting another to a dangerous or furious speed by driving to pass him.

Imposition of the penalty for murder on any person who causes the death of another through furious driving and who does not render every assistance in his power afterward and who fails to report the accident to the nearest sheriff or police station.

VANCOUVER ISLAND NEWS Duncan

The Brentwood College rugby team defeated the Duncan High School on Saturday afternoon at Evans Field, Duncan, by a score of 12-4.

The Cowichan "Brownies" and Cubs gave a well-attended display in the Guild Hall, Duncan, on Friday evening.

The programme included "Dickory Dock," sung by the brownies; dance; bean bag game, brownies and Cubs; song by brownies; skipping by Mary Savage and Janet Buckham; some amusing "tumbling" by the Cubs; semaphore messages by six brownies; dance by Florence Evans; two songs by brownies; "match" competition; the Cubs' yell and sneeze; sailors' hornpipe, by Melba Anderson; recitation, by Maureen Hilton and Sheila Mutter; "shoemaker's dance," and potato race.

Rev. A. Bischoff was master of ceremonies and Mrs. E. W. Neel accompanist.

The Girls' W.A. of St. John's Church held a St. Patrick's tea on Saturday afternoon in St. John's Hall, Duncan. The hall was decorated with green streamers and shamrocks, and the tea tables were daintily with pussy willows and ferns. Interesting competitions were arranged, winners being Mrs. A. Bischoff, Mrs. W. Dobson and Mrs. B. Boyd Wallis.

The musical programme consisted of vocal solos by Mrs. Brookbank and Mrs. W. Dobson, accompanied by Miss Monk; recitations by Mrs. D. H. B. Holmes, and pianoforte selections by Miss Davidson and Miss G. Saunders.

Tea was served under direction of Mrs. J. Fletcher, president of the girls' W.A., assisted by Marjorie Pitt, Gladys Saunders, Sheila Dwyer, Doris Bischoff, Marjorie Langlois and others.

A fire at the Victoria was in Duncan on a business trip last week.

Cecil Bradshaw of Nanaimo is visiting his mother in Duncan.

Ben Colk has severed his connection with the Cowichan Merchants, Duncan, and left on Monday for Vancouver.

Quarantine of the King's Daughters' Hospital will be lifted on March 24 unless additional smallpox cases develop.

Dr. H. P. Swan, City Medical Health Officer, has announced.

Dr. Swan states that the three cases were all of a mild form. Other patients in the ward were vaccinated, and have not developed the disease. The hospital staff has been revaccinated.

KINGS OF LIVING

A grand and high-stepping monarch was old Louis XIV—they still talk about him back in his own home town. Nothing was too good for Louis—in fact, the best wasn't quite good enough.

Yet his magnificent palace had neither gas nor electricity and there wasn't a tiled shower-bath in the place.

To-day the average citizen enjoys conveniences and comforts exceeding Louis XIV's most extravagant dreams. And many things which we regard as absolute necessities would have seemed the most elegant luxuries to Louis.

Advertising has made possible this widespread distribution of the good things of life. Advertising has made possible large-scale production and large-scale selling, resulting in prices that take luxuries out of the "for-kings-only" class.

It is well worth your while to read the advertisements. They are largely responsible for the high standard of living enjoyed in this country to-day. And they are raising it daily, making us kings of comfort—kings for Louis to envy.

Read the advertisements—they help
you to enjoy life.

DEMANDS FAIR TREATMENT OF CIVIL SERVICE

Pattullo Fears Government
Will Destroy Esprit de Corps
in Regrading

Sees Little Chance of Rank
and File Getting Any Salary
Increases

Fear that the Government, in regrading the Civil Service, may destroy its esprit de corps was expressed by T. D. Pattullo, Opposition Leader, in the House yesterday, when a vote of \$75,000 to cover this reorganization was being discussed.

He explained that the Government had already ordered large increases in the salary of the Commissioner of the Police, the Deputy Minister of Finance. If increases were made on the same basis to other high officers in the service, little would be left out of the \$75,000 for the lower-paid officials.

"This will destroy the esprit de corps of the service," he warned. "Indeed, I fear it must be already destroyed when we have the Minister of Finance telling us in the House that the Civil Service is 'freight' which the Government evidently intends to jettison."

READS RETURNS
Mr. Pattullo read from returns submitted by the Government to the House to show that since it came into office, Civil Servants had "resigned," "been dismissed," "been discharged," "been dismissed for being drunk" or "having been drunk."

"I suppose, therefore," he remarked, "that the Government is dismissing men not only for getting drunk, but because at some time in the past they got drunk. Will that principle be extended in application to this House?"

He demanded assurance that the salaries of lower-paid employees would receive full consideration in the new regrading and that after this was complete, the statutory salary increases would be granted from year to year.

Britain Subject at Can-
adian Club

In view of the forthcoming election in Great Britain, an address to be given by Major Desmond Chapman-Huston to the Canadian Club to-morrow will be of special interest. Major Chapman-Huston will take as his subject, "Political Conditions in Great Britain."

The luncheon will start at 1 p.m. in the Empress Hotel.

Widely-reputed as a fluent and forceful speaker, Major Chapman-Huston will undoubtedly prove a popular lecturer with members of the club. Today he addressed the Vancouver Canadian Club, the speech being broadcast over radio station CNRV.

As a colonel on Quartermaster-General Sir John Cowan's staff, Major Chapman-Huston was on the staff of the British Military Mission during the Versailles Peace Conference, later being connected with the League of Nations at Geneva.

Among his literary works are "The Life of Sir John Cowan" and "Daisy, Princess of Peace," which he edited. In June and July of this year Major Chapman-Huston will direct a tour of the British Isles sponsored by the Association of Canadian Clubs.

Keating
The South Saanich Women's Institute held their fortnightly card party in the Temperance Hall on Saturday evening with eight tables in play. Those capturing first honors were Misses Nellie Styan, Blanch Sherring and Messrs. W. McNally and N. Richardson. Second prize went to Mr. Clow, Mrs. H. Lawrie, O. Sherring and W. Eate.

Refreshments were served by Misses Nellie Styan, Blanch Sherring, and Margaret Mitchell.

The regular monthly meeting of the South Saanich Farmers' and Women's Institutes will be held in the Temperance Hall on Thursday evening, March 21. George Robinson of Elk Lake is expected to address the Women's Institute on gardening. Cecil Tice will address the men on seeds.

Mr. and Mrs. Highstead of Sonoma spent the week-end visiting Mrs. Highstead's parents, Mr. and Mrs. Rhode.

The March meeting of the South Saanich Junior Institute was held at the home of Miss Ora Young on Thursday evening. Miss Janet Sherring presided. Misses Blanch Sherring, Margaret Mitchell and Nellie Styan were appointed the card party committee. The next meeting will be held at the home of Mrs. Fred Mitchell. Misses Ora Young and Ethel Bull served tea following the meeting.

The ladies' aid of the South Saanich United Church held its monthly meeting in the church on Thursday afternoon with a good attendance.

Arrangements were made for the annual St. Patrick's sale of work in the church on Monday, March 18, from 3 to 5 o'clock.

Following the business readings were given by Miss Deering on "Chinese Missions," and Mrs. Howe on "Korean Missions." Afternoon tea was served following the meeting.

The ploughing match to have been held on Wednesday afternoon, March 20, under the auspices of the South Saanich Farmers' Institute, has been cancelled.

The Young People's Club of the United Church held its weekly meeting in the church with Rev. J. H. presiding. Mrs. Howe led the devotional period, and Rev. W. L. continued the talk on "Korean Missions."

Mrs. W. Bate reported attending the young people's council meeting in Victoria and stated that the annual rally of the young people of Vancouver Island will be held at Ladysmith on Good Friday. The local club will attend the rally, transportation arrangements being in the hands of Rev. Mr. Lane and Rev. J. H.

There will be no regular meeting of the club on Monday evening, March 18, as the ladies' aid is entertaining the club.

COUNCIL EXPRESSES REGRET IN DEATH OF CHIEF JUSTICE

By a standing vote the Mayor and City Council of Victoria last night expressed a deep sense of regret at the loss sustained by the Province in the death of the late Chief Justice, the Hon. Gordon Hunter. The city was fully represented at the funeral to-day and will convey its sympathy by the following resolution to Mrs. Hunter in her sad bereavement: "Resolved that the City Council places on record its deep regret at the death of the late Chief Justice Gordon Hunter and its high appreciation of his great qualities as an able and impartial judge of the Supreme Court of the Province. The council further desires to offer its sympathy to Mrs. Hunter in her great sorrow and bereavement." The motion was introduced by Alderman William Marchant and passed by a standing vote.

Turn From Pay As You Go Plan

Pattullo Criticizes Govern-
ment Policy on P.G.E.
Deficits

The Government had apparently adopted a policy of borrowing to pay deficits on ordinary losses of the P.G.E. instead of taking it out of the annual Budget, T. D. Pattullo, Leader of the Opposition, declared in the Legislature when he failed to receive answers which satisfied him when capital accounts expenditures were under review.

Hon. W. C. Shelly told Mr. Pattullo, in answer to a question that \$12,000,000 only of the \$20,000,000 P.G.E. sinking fund was being provided for and the present Government was reverting to the system of the former Government up to 1923, and again in 1928, of meeting the deficits from the Loan Bill.

Last year, he said, \$4,600,000 was in the Loan Bill for this purpose.

Mr. Pattullo recalled that this amount was not for ordinary deficits but was to provide for the completion of construction of the road if it were not sold. By adopting the policy it had this year, the Government had \$400,000 more to squander in its estimates. The last Government had adopted a policy of meeting the deficit out of current taxation, a policy of paying as you go and from this policy the present Government was now departing.

Mr. Shelly after some investigation, reported that at the rate provision was being made, the \$20,000,000 would be wiped out by 1937.

POLICE CHIEFS TO ISSUE OWN SEARCH PERMITS

Chiefs of police in all British Columbia cities will be made justices of the peace so that they can execute search warrants whenever these are required. Attorney-General Pooley announced in the Legislature last night. This course, he said, would be followed as a result of a decision by Mr. Justice Morrison recently that a prosecution could not proceed because of the search of premises under a "blanket" search warrant. In future no such warrants will be issued, Mr. Pooley said.

Food Ferrin

The New Food Iron
By the
Battle Creek Sanitarium
Health Food Company

Food Ferrin is a blood-builder—one pound of Food Ferrin contains more iron than 10 pounds of spinach. It is not a drug—it builds, strengthens and improves every function of the body.

When a person is anemic it is necessary to supply several times as much iron as is needed to maintain the normal blood content in order to make good as quickly as possible any accumulated deficiency.

**Expectant and Nursing Mothers
Need Food-Ferrin**

Expectant mothers are very likely to become anemic, because of the extra demand upon their strength. Food Ferrin will counteract this cause of anemia, and make the patient strong and healthy. Ask for Food Ferrin in the

AMPLE MONEY FOR HOSPITALS

Howe Reassures Pattullo;
More Funds Available Than
Ever, He Says

Altogether the Government will have available for expenditure on British Columbia hospitals this year the sum of \$623,000, Hon. S. L. Howe, Provincial Secretary, informed the Legislature yesterday. In addition to \$323,000 voted in the current estimates in place of the former allocation of liquor profits, there will be further sums taken from the liquor profits for the six months ending March 31, Mr. Howe said. In other words, the new system of divorcing hospitals from liquor profits will go into effect on April 1, but the hospitals will receive in the new fiscal year revenue earned in the six months of the present year.

T. D. Pattullo, Opposition Leader, declared the hospitals would receive \$200,000 less under the new system of financing than under the old, but Mr. Howe flatly denied this.

"We shall have ample money for hospitals," he said, "in fact, more than ever before."

DOG GIVES DEMONSTRATION

Boston, March 19.—Superintendent of Police Michael J. Crowley received a visit from Dauntless, an exceedingly clever German police dog, and Sgt. Scotty Wilson of the Canadian Mounted Police. The dog is reputed to have played an important part in the investigation of the Hickman murder case in California, and is a member of the "Canadian Mounted." Dauntless demonstrated to Sgt. Crowley how he trails criminals and "gets his man." He opened and closed doors, sprang at his master's neck upon command and, in a general show of his ability, he could be in an emergency.

DEMAND

BAYER

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it's not! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

Physicians prescribe Aspirin;
it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

AID VOTED FOR
UNEMPLOYEDBritish House of Commons
Approves Payments to Those
Out of Work

London, March 19.—Second reading was given the unemployment insurance or Transitional Provisions Amendment Bill in the House of Commons yesterday. The bill provides for the continuation of the unemployment insurance for another year of transitional provisions under which the payment of thirty contributions in two years as a condition for the receipt of unemployment insurance relief is suspended.

Sir Arthur Steel-Maitland, Minister of Labor, said the continuance of the suspension was due to the fact that hopes for a general improvement in trade had not been fully fulfilled owing to the effect of the coal stoppage being more lasting and going deeper than had been expected.

It was gradually being overcome, he said, but not as quickly as could be hoped. The country generally was de-

WOMAN FACES
MURDER CHARGE

Chatham, Ont., March 19.—The authorities yesterday placed a charge of murder against Mrs. Helen Smith, wife of a Sandwich, Ont., farm laborer, whose three children died of poison alleged to have been administered by the mother prior to the burning of her home last Friday. The woman's husband and eldest son remained in the house and the three children from the burning house. The children died in a hospital.

Lord Lovat Leaves
Settlement Committee

London, March 19 (Canadian Press Cable).—Baron Lovat has resigned the chairmanship of the Overseas Settlement Committee owing to ill-health. He has now almost completely given up public life.

Reduce
the Acid

In sick stomachs—instantly

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, fifty years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

ENGAGEMENT ANNOUNCED

MR. R. A. DIESPECKER AND MISS SYBIL LOUISE MACKENZIE who are to be married on Wednesday, April 3, at St. Paul's Church, Vancouver, at 8.30 p.m. Miss Mackenzie is the daughter of Mr. and Mrs. Jerold S. Mackenzie, of Vancouver. Mr. Richard Alan Diespecker is the youngest son of the late Capt. Rudolph L. Diespecker and Mrs. Diespecker, of Cape Town, South Africa. He spent his boyhood days in Victoria, receiving his education at the Victoria High School, where he was editor of the school paper, The Camosun, and at Victoria College. He was a popular member of the younger set and was a keen Rugby and tennis player. Mr. Diespecker has been residing in Vancouver for the last two years.

Your Baby and Mine

By MYRTLE MEYER HILDRED

Mrs. Meyer will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope forwarded to this office will bring a personal reply.

KEEPING BABY WARM

Mrs. F. J. E. writes:

"Here is a suggestion for keeping baby warm. In all my baby's blankets I sew a dart in the centre of the top edge. These blankets, when pinned in to place, fit snugly around the shoulder and allow some movement beneath."

ANSWER

This is quite an unusual idea.

CHILD EXPERIENCES

NATURAL PENALTY

Mrs. G. J. K. writes:

"I want to relate an incident to you. I have a friend, the mother of eight children, and a wonderful mother. This friend never gets angry with her children. She always speaks to them in a low, even tone, and yet when she speaks they seem to know and understand that they must stop whatever it is she is speaking about."

"One time one of the little boys was throwing snowballs and he threw one at an upstairs window. She looked out and said, 'Son, you will break the window, do not throw this way.' He paid no attention, but threw them in the same direction and finally did break a window."

"Instead of shouting at him, she finished her work and then later when

she came downstairs she said, 'Ted, to get your bank and take enough out of it to pay for a new pane of glass. I was saving up for something special, and you can rest assured he did not relish the idea. It is safe to say that no more snowballs were thrown without a realization of how much window panes cost.'"

ANSWER

Penalties growing out of the situation

themselves are the best type of discipline. Sometimes they cannot be used because the penalty is more serious than the offense. We can't let a child fling himself out of a window in order to find out that he will break a leg or kill himself, but the more natural penalties that we can use in order to teach a child that our wisdom could save him if he would only listen, the less of will we have to contend with in disciplining him."

Mrs. J. D. H.

Changing the given name would seem to me to demand no particular expense or ceremony in the case of a two months old child except to make the correction on the birth certificate. You can do this through the doctor who made it out for the baby. A surname which must be changed would, I understand, demand some legal advice.

RESEARCH WORK
ADDS TO PROFITS

Forestry and Other Discoveries Made at University of Toronto

Toronto (By Mail).—As many as 315 research problems under investigation at the University of Toronto provided a great deal of work last year, the majority of the cases having a bearing, more or less direct, on the industrial life of the country. The fields which still continue to be explored include mining, agriculture, forestry, fishing, engineering, biology and many others.

A professor in the department of forestry has studied the diseases of jack pine from the standpoint of its utilization for railway ties, the control of disease in the forest, and the age at which timber can be harvested with the maximum yield. He has effected a saving of an immense amount of material, formerly considered not usable, especially in the snow-laden areas of Quebec and Ontario, and millions of trees were lost in the nurseries. He was able to find a means of controlling this blight so that where his method of control is adopted the disease makes no headway, and will probably be wiped out. His discoveries also include a means of preventing railway ties from rotting, can now be used as a result of his researches.

SAVES YOUNG TREES

The same professor went after a blight of young conifers, particularly spruce. This blight was noticed especially in the snow-laden areas of Quebec and Ontario, and millions of trees were lost in the nurseries. He was able to find a means of controlling this blight so that where his method of control is adopted the disease makes no headway, and will probably be wiped out. His discoveries also include a means of preventing railway ties from rotting, can now be used as a result of his researches.

scheme for catching the sulphur dioxide as it comes up smokers' smokestacks, concentrating it and then returning it to sulphur. So far the process has been carried out only in the laboratory.

In one of the laboratories of the faculty of applied science it has been found that natural gas, millions of cubic feet of which go off into the air in Alberta while gasoline is being brought to the surface from the oil wells, can be chlorinated, changed into liquid and in this form shipped to centres where it can be used.

Vancouver Man
Dies of Injuries

Vancouver, March 19.—W. St. Quinton, baker of 4012 Fraser Street, Vancouver, who suffered a fracture of the skull when his auto collided with another car at Cardero and Barclay Streets shortly before 4 p.m. yesterday, died an hour later in St. Paul's Hospital.

W. Lewis Paynter, 746 Cardero Street, was held on a technical charge of manslaughter. He is free on \$5,000 bond.

AEROPLANE MAPPING

Ottawa, March 19.—Inauguration of a five-year programme of air mapping to cover the greater portion of Northern Alberta was announced yesterday by Hon. Charles Stewart, Minister of the Interior. The Peace River country and adjacent areas are being mapped. The Minister said that he realized the old-time methods of ground survey were not rapid enough to place the Government in a position to deal with the situation in an adequate manner. He had therefore concluded arrangements to map that portion of the country by means of the up-to-date method of aerial photography.

"Have you taken a correspondence course?"

"Yes—I never write to women now."

Eloquence Wins
Government OverPeck Votes Against Motion
He Seconded to Support
PattulloNew Rules and Order For
Legislature Are Held Up For
Another Year

The persuasive eloquence of T. D. Pattullo, leader of the Opposition, and A. M. Manson, K.C., at the opening of the evening session of the Legislature last night proved so effective that three members including the Premier rose to their feet "to vote against the Government."

As a result H. D. Twigg withdrew a resolution on the order papers in his name calling upon the House to resolve itself in a committee of the whole and consider the draft standing orders as amended and reported by the select committee.

Mr. Pattullo drew attention to the suggestion made by Mr. Manson earlier in the session that the proposed new rules to govern the proceedings of the House were of so great importance that they should be taken home and considered by the members during the recess. For the Opposition especially the rules were of importance. They must be careful of the rights of the minority as represented by the public were protected. Mr. Manson promised the Liberal members would consider them before the Legislature was called next session and be unanimous upon them.

Attorney-General Pooley opposed the delay. Mr. Twigg thought it was advisable they should be proceeded with.

C. F. Davie, Conservative, Cowichan-Norwester, said if a vote were taken he would favor them being held over until the next session.

Premier Tully thought under the circumstances and considering it was late in the session they could be held over and introduced early next session so that the House could operate under them for the greater part of the session.

"Like the Prime Minister," said Colonel Peck, Conservative, the Islands "I feel inclined to vote against the Government." As second of the resolution he was speaking against the Government and he was graciously given to Mr. Twigg his consent to withdrawal.

Chief Justice
Gordon Hunter

By W. P. MARCHANT

The passing of the Chief Justice of the Province is worthy of more than a passing notice. Your sympathies editorial referring to this and event will find an echo in the hearts of many who knew Gordon Hunter in the years past, and rejoiced in his great ability, both as a clever advocate and an able and impartial judge.

I knew him in political life, and enjoyed his keen incisiveness in debate, his brusqueness in getting away with a gesture or a phrase his opponents' arguments, and his sound judgment in regard to Dominion and Provincial questions.

There were giants in those days. Out of the obscurity of the past, I recall the names of Lieutenant-Governor Richardson, once a member of the Mackenzie Cabinet, Hon. Archer Martin, of the Appellate Court, Senator Bosworth, founder of The Province (once a member of the Mackenzie Cabinet), Hon. Win. Templeman, Minister of Mines and Inland Revenue, in the Laurier administration, Chief Justice Burton, Hon. Lyman Duff, now of the Supreme Court of Canada and "fighting Joe" Martin, the stormy petrel of Manitoba and Nova Scotia.

Each in his own way contributed much to the enjoyment of political gatherings, and incidentally to the steadily growing influence and strength of Liberalism. Forty years ago, the dominance of Conservatism was indisputable, and it was, inviting social and commercial ostracism to look as a Liberal. Hence those who by natural gifts and position stood by as avowed opponents of the great party led by Sir John A. Macdonald needed to be men of strong character and ability, and Gordon Hunter took his place in the front rank.

A vacancy occurred on the bench. Chief Justice McCall had laid down for ever his seals of office, and an appointment became necessary. Gordon Hunter's name, amongst others, had been considered. He was finally appointed. Strong opponents—political and legal—of the late judge were bound to respect his great powers as a jurist, and his fearless uncompromising attitude upon all questions submitted to him.

He had an instinctive dislike of ceremonial. Outwardly austere and brusque at heart he was kindly, friendly and loyal.

To mark the occasion of the presentation of the Freedom of the City to Lord Willington, I solicited him as the Chief Justice of the Province, to administer the oath of office. To this he strongly demurred at first, because of his antipathy to all forms of this character, and it needed all my diplomatic to induce him to be present, and even then, he would not don any costume significant of his office.

It is easy to criticize or condemn. Few are suitable qualities of human lives. Frailty and weaknesses are not confined to ordinary and commonplace folk, but are also found in the great. Strong opponents—political and legal—of the late judge were bound to respect his great powers as a jurist, and his fearless uncompromising attitude upon all questions submitted to him.

When the Great Assize of mankind shall be held, and an unerring Judge shall hear and pronounce judgment upon all our lives, faiths and works, we may be well assured that "mercy and truth are met together, righteousness and peace have kissed each other." British Columbians may well mourn the loss of so able, impartial and experienced jurist as the late Gordon Hunter.

Waiter—One moment, sir, and I will make out the bill. Did you have soup with mushrooms or with potatoes?

Patron—I don't know; it tasted of soap.

Waiter—Oh, then it was haricot—the mushrooms tasted of petrol to-day.

"I suppose you and your husband are out a good deal now you've got a car?"

"Oh, yes—pounds and pounds."

NEW AID FOR
FARM SETTLERSMarcell, Addressing Commons,
Suggests Low Fares From
Eastern Canada

Ottawa, March 19.—Hon. Charles Marcell, Liberal, Bonaventure, Que., speaking in the budget debate in the Commons yesterday afternoon, said the province of Quebec had been for some years of the opinion that the same conditions should be available to eastern Canadians who wished to go West as were accorded to newcomers to this country. He recalled that the agricultural committee of the House had passed a resolution for the reduction of railway rates to the West to those desirous of settling in that part of the country. Nothing had been done in respect to this resolution, Mr. Marcell proceeded, and he hoped the Minister of Agriculture would give the matter his attention.

Mr. Marcell was of the opinion Canadians were the best type of settler, and all efforts should be made to induce people from Quebec, Ontario and the Maritimes to go West in place of going to the New England States.

FRASER SPEARS

J. A. Fraser, Conservative, Cariboo, explained to the House that his constituency extended almost the full length of British Columbia and was almost half as wide. Many complaints had been heard in Eastern Canada with regard to the dairy industry, and he felt it his duty to say those complaints were also prevalent in Cariboo. This applied also to the fruit growing industry.

Mr. Fraser spoke of the isolation of the settlers in Northern British Columbia. He thought that if the Government could spend thousands of dollars on an air service in Eastern Canada, it could provide some money for the inauguration of postal services among the scattered settlements in the Pacific Coast province.

Mr. Fraser believed it was time the Government took action for the relief of the Pacific Coast for the Fraser River district.

EASTERN FISHERMEN

W. G. Ernst, Conservative, Queens-Lunenburg, N.S., suggested that if the fishing industry of Nova Scotia were to survive, fishermen would have to be organized co-operatively.

Mr. Ernst urged a system of loans for fishermen.

D. F. Kellner, U.F.A., Athabasca, spoke of the tariff.

IRON ORE

T. E. Simpson, Conservative, West Algoma, Ont., urged payment of a bounty on iron ore.

W. F. Garland, Conservative, Carleton, Ont., advocated an embargo on all vegetable products entering Canada from the United States which could be produced in this country, and suggested steps taken to encourage the exportation of eggs to Australia and Great Britain. In his opinion Australia might remove the duty on Canadian eggs during certain months of the year.

Hon. H. H. Stevens, Conservative, Vancouver Centre, moved adjournment of the debate.

"Who said FRY'S?"

He just loves its delicious chocolaty flavour. Kiddies who get FRY'S regularly are vigorous, warm-blooded and healthy. They throw off colds quickly. They are more likely to escape epidemics. If you have some little pale faces at home, just try FRY'S.

"200 Years of Excellence"

NEW AID FOR
FARM SETTLERSMarcell, Addressing Commons,
Suggests Low Fares From
Eastern Canada

Ottawa, March 19.—Hon. Charles Marcell, Liberal, Bonaventure, Que., speaking in the budget debate in the Commons yesterday afternoon, said the province of Quebec had been for some years of the opinion that the same conditions should be available to eastern Canadians who wished to go West as were accorded to newcomers to this country. He recalled that the agricultural committee of the House had passed a resolution for the reduction of railway rates to the West to those desirous of settling in that part of the country. Nothing had been done in respect to this resolution, Mr. Marcell proceeded, and he hoped the Minister of Agriculture would give the matter his attention.

Mr. Marcell was of the opinion Canadians were the best type of settler, and all efforts should be made to induce people from Quebec, Ontario and the Maritimes to go West in place of going to the New England States.

FRASER SPEARS

J. A. Fraser, Conservative, Cariboo, explained to the House that his constituency extended almost the full length of British Columbia and was almost half as wide. Many complaints had been heard in Eastern Canada with regard to the dairy industry, and he felt it his duty to say those complaints were also prevalent in Cariboo. This applied also to the fruit growing industry.

Mr. Fraser spoke of the isolation of the settlers in Northern British Columbia. He thought that if the Government could spend thousands of dollars on an air service in Eastern Canada, it could provide some money for the inauguration of postal services among the scattered settlements in the Pacific Coast province.

Mr. Fraser believed it was time the Government took action for the relief of the Pacific Coast for the Fraser River district.

EASTERN FISHERMEN

W. G. Ernst, Conservative, Queens-Lunenburg, N.S., suggested that if the fishing industry of Nova Scotia were to survive, fishermen would have to be organized co-operatively.

Mr. Ernst urged a system of loans for fishermen.

D. F. Kellner, U.F.A., Athabasca, spoke of the tariff.

IRON ORE

T. E. Simpson, Conservative, West Algoma, Ont., urged payment of a bounty on iron ore.

W. F. Garland, Conservative, Carleton, Ont., advocated an embargo on all vegetable products entering Canada from the United States which could be produced in this country, and suggested steps taken to encourage the exportation of eggs to Australia and Great Britain. In his opinion Australia might remove the duty on Canadian eggs during certain months of the year.

Hon. H. H. Stevens, Conservative, Vancouver Centre, moved adjournment of the debate.

No jumpy feeling
NOW when I drive
through traffic

A feeling of strain takes the pleasure out of driving. Any motorist is apt to feel the effects of nervous tension during a long spell at the wheel.

Nothing relieves this tension so effectively as Wrigley's. The act of chewing, as motorists have discovered, has a gentle soothing effect. The healthful cleansing action of

Wrigley's refreshes the mouth—steadies the nerves. Ask your doctor and he will tell you so.

Dentists and medical men recommend the regular use of Wrigley's after every meal—because it aids digestion and cleanses the mouth after eating, drinking or smoking.

Efficiency and refinement call for Wrigley's.

Wrigley's

after every meal

Cubs to Make Their Final Appearance of Season To-night

Finis Will Be Written to Local Pacific Coast Hockey League Schedule When Victoria and Seattle Meet; Large Turn-out of Fans Expected; "Taps" to be Sounded for Late Pete Muldoon; Victoria Players Will Leave for Home To-morrow; Cubs Hope to Wind Up Season With Victory.

To-night will write finis to the Pacific Coast Hockey League schedule for this season as far as Victoria is concerned, when the Cubs and Seattle Eskimos meet in the final game of the season. This will also be the Cubs' last engagement this year. The teams will get into action at 8:30 o'clock, with Mickey Ion as referee.

No doubt there will be a large turn-out of fans for the final fixture. The Cubs are out to wind up their season with a victory while Seattle, who are attempting to finish in second place, are just as keen for the two points. The Esks turned the Cubs back in Seattle Saturday night by a 3-1 count.

TAPS FOR MULDOON

Before the start of the game the fans and players will pay their respects to the late Pete Muldoon, manager of the Esks, who died last week. The fans will stand bareheaded, while the players will take their regular places on the ice, as a bugler sounds "taps."

After to-night's game the Victoria team will scatter to many parts. Herman Runge and Ernie Kenny will leave to-morrow for Edmonton. The former will return to the Cubs shortly and spend the summer in Portland. Paul Runge will proceed to Portland to continue his studies in aviation. He has completed about half his course. Ernie Leacock and Osmundson will leave this week for their homes on the prairies.

Chief O'Meara, manager of the Cubs, Jack Kelly and Oliver Redpath intend to return to Winnipeg. Jimmy Evans will go to Vancouver to spend the summer months. Earl Robertson, the local goal, will depart shortly for California. Pridham has not yet made up his mind where he will spend the summer.

The teams for to-night's game follow: Victoria—Robertson, Keany, Redpath, Kelly, Evans, H. Runge, P. Runge, Osmundson, Leacock and Pridham. Seattle—Levine, Johansson, Borland, Walker, Brown, Harris, Sutherland, Rennie, Dwyer and Overend.

Former Heavyweight Champ to Promote Miller-Mandell Bout By Himself

Will Not Align Himself With Garden; Has Conference With Fugazy

New York, March 19.—Jack Dempsey, the promoter, announced last night he had persuaded Sammy Mandell, the "Rockford" fighter, to defend his lightweight championship against Ray Miller, the Chicago left-hook artist, sometime in July. The fight, Dempsey said, probably would be held either in Detroit or New York.

The old "Manassa Mauler" said all his plans for the lightweight title fight were indefinite, but he expected to be able to announce the exact date and site within a few days. He hopes to stage the bout June 7. Dempsey said he had signed Mandell, the Chicago left-hook artist, sometime in July. The fight, Dempsey said, probably would be held either in Detroit or New York.

"Miller is a legitimate lightweight," Dempsey said. "The result of Friday's fight won't affect my plans at all."

The former heavyweight champion made it clear that this proposed bout would be promoted solely by himself. He said he was in New York, Dempsey said, he had signed Mandell, the Chicago left-hook artist, sometime in July. The fight, Dempsey said, probably would be held either in Detroit or New York.

Both games will commence at 2:45 with Hewison officiating at the Royal Athletic Park and McKay refereeing at Beacon Hill.

To oppose the Saturday League All-stars in the second game of the series for the Ansonby Cup at the Royal Athletic Park on Good Friday, the Wednesday Football League selected a strong eleven last night.

The team follows: Goal, Shrimpton; Half-backs, Robins, Robinson, Navy, and Tupman; Rennie & Taylor; Full-backs, George Davis, Haugen and D. Stewart; Rennie & Taylor; Forwards, Taylor, Kenner, & Taylor; Nex, Rennie & Taylor; Spriddell, Navy, "Dutch" Davis, Rennie & Taylor, and Cosler, Navy. Reserves, Roberts, Navy; Oakman, Hudson's Bay, and Blanco, Saanich United.

Both games will commence at 2:45 with Hewison officiating at the Royal Athletic Park and McKay refereeing at Beacon Hill.

FOUR MURDERERS OF OLD MAN PAR

The young men pictured above might be termed the "Big Four" of the United States Ryder Cup golf team that will invade England within a few weeks. Reading from left to right they are: Walter Hagen, Gene Sarazen, Leo Diegel and Johnny Farrell. This picture was snapped recently when Hagen and Diegel defeated Farrell and Sarazen in a thirty-six-hole match in Florida.

Local Track And Field Men Star In Varsity Meet

Breaking the tape in two sprints and the high hurdles and leading the field in the broad and high jumps, Art Fell, captain of the U.B.C. track men and former Victoria sprinter, took the aggregate point laurels in the U.B.C. track meet last week in Vancouver. Gavin Drom, another sprinter, well known in track and field media here, carried off second-place aggregate honors, while Davis Carey, former Victoria College student, led the field in the three-mile run.

Fell ran for some time under Archie McKinnon, coach at the local Y.M.C.A., and was an outstanding track and field man while attending Victoria High School.

Drom, the other local boy, carried off first honors in the pole vault and finished second in seven events.

The boys stood up against the best talent in the university and between them succeeded in carrying off the majority of points.

Both games will commence at 2:45 with Hewison officiating at the Royal Athletic Park and McKay refereeing at Beacon Hill.

N.H.L. Teams Start Quest To-night For World's Supremacy

Montreal Canadiens and Boston Bruins, Leaders of Two Divisions, to Clash in First of Five-game Series for Right to Enter Finals; Rangers and Americans Will Tangle; Toronto's Band of Youngsters to Be Entertained by Detroit; Cougars Crippled by Injuries to Lewis and Herberts.

Toronto, March 19.—The world series of hockey, the play-offs for the Stanley Cup, emblematic of the world's championship, begins to-night in three cities in the United States. Boston, New York and Detroit are the chosen places for the opening games with Canadiens of Montreal, and the Toronto Maple Leafs, only Canadian survivors of the regular National Hockey League campaign playing the visitors' roles.

At Boston the Bruins and Canadiens, the speedy, powerful aggregations which finished first in the American and International sections, meet in the first contest of a five-game series. The winner goes directly into the cup final, meeting the victor in the play-offs between the second and third-place teams.

The two New York teams, Americans and Rangers, second place finishers, respectively, in the International and American sections, start a two-game series to-night.

A similar two-game series between Toronto and Detroit for third place honors promises to produce fireworks. The young Canadian players want a "win or lose" basis all season, playing only five times.

DETROIT CRIPPLED Detroit, although crippled at the end by injuries to Herby Lewis and Sailor Herberts, had the habit of pulling out surprise victories. They were even for the season with two victories each.

The two-game play-offs this week between the second and third-place teams set the stage for a semi-final between the two winners for the right to meet either Boston or Canadiens for the Stanley Cup. The first game of this three-game series will take place in New York on March 24 and the second in either Toronto or Detroit two days later.

Montreal, March 19.—The Montreal Herald compiles the following list of records marked up by the Montreal Canadiens, leaders of the International section of the N.H.L. in the race which ended over the week-end: "Twenty-two shut-outs in forty-four games, a record since the league has been composed of ten clubs, the previous record being ten games lost by Ottawa in 1926-27 season. The seven-loss record equals that made in the vast majority of years by winning teams, when the schedule called for many games less than now."

"Scored upon only forty-three times in forty-four matches, an average of less than one per game. Canadiens in the first half of the season scored forty-eight goals against last season. The year previous they also had the lowest goal-against count, sixty-seven. Goals scored by Canadiens in 1928-29 season. The seven-loss record equals that made in the vast majority of years by winning teams, when the schedule called for many games less than now."

"Held opponents to greatest number of draws-games in the season, fifteen, a new record for the league. The season's sequence for unbeaten games on consecutive nights, all on foreign ice. Defeated Ottawa 2-1 in January 25, January 26, January 27, in New York; January 28; Rangers 1-0 in New York; January 29."

Vancouver Halts Rush of Eskimos For Second Place

Seattle Makes Strong Bid for Victory But League Leaders Triumph by Odd Goal in Five; Eskimos Do More Attacking But Fail to Get Through Strong Defence of Lions; Joe Jerwa Thrills Crowd With His Rushes; Esks Throw Every Man on Attack in Dying Moments But Fail to Tie Score.

Vancouver, March 19.—Seattle Eskimos made a strong bid for victory over the Vancouver Lions here last night in the final game of the Pacific Coast League schedule on local ice, but they had to be satisfied with the short end of a 3-2 score. The Eskimos, however, gave the league leaders a hard game. They scored their goals in the first few minutes of the opening period and in the last minute of the final period. Somers and Browne, the league's leading scorers were closely watched but each got a counter. McAdam scored two goals by himself for the Lions. Borland got the first counter for Seattle. The game was fast and no undue roughness marred the play.

Both teams played at top speed with stiff back-checking. Seattle did more attacking but their rushes were broken around the blue line while the Vancouver counters were scored on close-in plays. Only three penalties were handed out. It was a battle of the goalies from the start and both net-minders were given more than an average evening's work. Seattle had several tough breaks on shots that looked almost certain.

JERWA IS STAR

Joe Jerwa, lanky defence star of the Lions, featured on both attack and defence and his rushes brought the crowd to their feet many times. The two centres were a target for the defence most of the time and they had to be content with getting the puck out to the wings. Neither team let up on the pace. Near the close the Eskimos broke away after having had a fairly long-time keeping the locals out. They had every man except the goalie within the local area and only the closest of checking prevented the game going into overtime.

The line-ups:

Vancouver—Jackson, Jerwa, Brenneke, McAdam, Sanderson, Somers, Seattle, Dunn, Arnot and P. Jerwa. Seattle—Levine, Johannesson, Borland, Harris, Walker, Browne, Sutherland, Reams, Daly and Overland. Referee—Mickey Ion.

Summary:
First period—1, Seattle, Borland, 2:10; 2, Vancouver, Somers, Brenneke, 1:37; 3, Vancouver, McAdam, 3:13.
Second period—4, Vancouver, McAdam, 9:25.
Third period—5, Seattle, Browne, 10:42.
Penalties:
First period—None.
Second period—Jerwa, Harris.
Third period—Borland.

Payne Scores Winning Goal

Tally Gives Margaret Jenkins School Soccer Title After Hard Match

Scoring on a fast shot after eight minutes of overtime, George Payne, flashy young forward of the Margaret Jenkins School, gave his team a 2-1 victory over Victoria West School in the finals for the senior city school soccer championship at Beacon Hill Park yesterday. This is the third successive time Margaret Jenkins has won the title.

Opening the game with a whirlwind attack, Margaret Jenkins forced their opponents to their end until they succeeded in scoring the opening tally half way through the first period. The Wests retaliated with fast rushes and before many minutes had elapsed in the second half evened the count. Both teams sent in fast shots on the goal, but Heaton, in the Margaret Jenkins net, and Price, between the Wests' uprights, turned in stellar performances and stopped shots that seemed to be destined for their nets.

MAINTAIN PACE

For the remainder of the second half, the teams maintained their fast pace and several times came close to scoring. The Wests had a hard break when one of their forwards sent in a hard drive that hit the post just before time.

The first five minute overtime period was a struggle, but George Payne succeeded in getting through to score after three minutes in the second.
H. S. Tura refereed.
Victoria Wests—Price, Burnett, George, Laid, Grossman, H. Hay, Gordon, Stevens, Hazard, O'Neil and J. Hay.
Margaret Jenkins—Heaton, Andrews, Tutuill, Barnfield, Lund, Reside, Lawson, Payne, Harris, Leason and Johnson.

TO DEFEND TITLE

JOE DUNDEE

Boston, March 19.—Joe Dundee, welterweight champion, has signed a contract to defend his title here on June 23. Either Al Mello, Jackie Fields, Jimmy McLarnin or Young Jack Thompson will be named as Dundee's opponent.

Trail Defeats Alberta Boys

B.C. Hockey Champs Advance in Series For Dominion Championship

Calgary, March 19.—Trail Smoke-Eaters, champions of British Columbia, are en route to Winnipeg to contest the winner of the Port Arthur-Régina Vics Allan Cup series as a result of defeating High River Fliers, two nights ago.

Although the second game was played on a treacherous ice, the few hundred faithful fans were treated to an interesting affair, in which the rejuvenated Fliers held their own until early in the final period, when Trail scored twice to win the game.

There was little ice left for the performers when the shaver was operated a few hours before they commenced. What ice there was, was honeycombed quickly and the skaters were cutting into it an inch or more, while there were pools of water at different places. Despite the handicaps they encountered, the teams provided a keen struggle to wind up the greatest season of amateur hockey in Calgary's history.

Los Angeles, March 19.—The once invincible Hollywood Millionaires tumbled to third place in the California Ice Hockey League last night when they dropped a 3-2 contest to the San Francisco Seals. The Seals, who were second place behind Oakland,

NEWBOOK ON GOLF HUMOR

Barrie Payne, Author of "McDuff" Adds to Fame By Latest Publication

Barrie Payne, author of the "McDuff" comic which appears daily in The Times, has recently added to his wide fame as a golf humorist for newspapers and magazines by publishing a humorous book on golf entitled "Ida Broke".

The title is the title of this 300-page volume. The title is based on the famous golf aphorism: "I'd broke ninety if I hadn't" etc. The subtitle is "The Humor and Philosophy of Golf" with Chick Evans, former national golf champion, as a collaborator. Grantland Rice wrote the introduction.

Reviewers have praised the volume as the most unique golf book that has been published. E. P. Dutton and Co., publishers, report an unprecedented demand for Payne's book. "Ida Broke" is profusely illustrated with fifty-four drawings selected from the 1926 "McDuff" cartoons which have appeared in newspapers during the past five years.

Grantland Rice has this to say about the author: "Barrie Payne has for many years not only been a keen follower of golf, but a commentator who understood thoroughly its humor, philosophy, and the appeal of its human side. Mr. Payne has always had a sharp, incisive, and sharp, incisive comments that tell the story correctly and vividly."

E. Schofield's Goal Gives Victoria High Grass Hockey Shield

Scoring their team's lone goal just before the final whistle sounded, E. Schofield gave Victoria High School victory over the Oak Bay High School in the girls' grass hockey game played yesterday.

The game was a close one, with Victoria High School gaining the May Tully Shield. Play in the match was close from start to finish, and the definite outcome of the game was not assured until the final whistle sounded.

Minor Hockey League Results

Toronto, March 19.—Easily defeating Niagara Falls 6-1 at Fort Erie last night, Buffalo slipped into fourth place in the Canadian Pro Hockey League standing ahead of Kitchener. At the same time, Toronto and Hamilton drew, 2-2, the point strengthening Toronto in third place, where they are three points ahead of Buffalo.

Buffalo has a margin of only one goal on Kitchener and each have one more game to play.
Winnipeg, March 19.—Elmwood, junior champions of Manitoba, last night qualified for the Canadian play-offs by throwing aside the threat of the Koroas. This was a thrilling overtime fixture. The Winnipeg team came from behind to even the score at 5-5 at the end of sixty minutes of hectic battling, and scored the odd goal after seven minutes and thirty seconds of the overtime.

LIKED BY YANKS

GORDON RHODES

The New York Yankees will carry some young pitchers to aid the veterans this season and it looks as if Gordon Rhodes, the former University of Utah youngster who was bought for \$50,000 from Hollywood, is on the inside track for a regular job. Manager Huggins doesn't get extremely enthusiastic about rookies, but the experts covering the camps regard Rhodes as one of the best rookie hurlers of the year on his record.

Joins Cleveland

BIB FALK

If, as it has been said so often in recent years, Falk was dissatisfied in Chicago, he should be pleased with the deal whereby he became a member of the Cleveland Indians. Falk was sent to Cleveland by the White Sox for Catcher Autrey and an unnamed sum of money. He should prove a welcome addition to the Cleveland outfield.

"Mom, the little boy next door says there's no such thing as a thousand dollars," said a child.
"There, there, run along, and don't play with those Democratic children any more."

Gives Judgment On Liability In Auto Smashes

Mr. Justice Murphy Holds Owner Not Liable Unless Driving at Time

Vancouver, March 19.—Unless the driver of an automobile is acting the agent or on behalf of the owner, the latter is not liable for damage caused by the driver, according to a judgment of Mr. Justice Murphy. Por that reason the judge cleared of liability Mrs. Mae Richards, Drake Street, who was a co-defendant with her husband, Jeremiah Richards, in a Supreme Court action at the suit of C. M. A. Nielsen and the latter's wife, Anna, Pendrell Street.

A Supreme Court jury awarded the plaintiff \$750 as compensation for injuries sustained by Mrs. Nielsen, through a collision September 29 last at the intersection of Pendrell and Thurlow Streets, between her husband's automobile, which she was driving, and that of Mrs. Richards, driven by the latter's husband.

The pronouncement of Mr. Justice Murphy is important in view of a recent judgment of the Supreme Court of Canada which indicated an automobile owner is liable for damage caused by a driver through infraction at a corner of the Ontario Highway Traffic Act.

WORDING SIMILAR

The statute enacted the "owner of a vehicle shall be held responsible for any violation of this act—unless at the time of such violation the owner was in the possession of some person other than the owner or his chauffeur, without owner's consent, and the driver of the motor vehicle, not being the owner, shall also be responsible for such violation."

This enactment is similar to that of the Motor Vehicle Act of British Columbia, which reads:

"The owner of a motor vehicle shall be held responsible for any violation of this act, by any person entrusted with possession of such motor vehicle."

"The court of appeal has twice construed the section of the Motor Vehicle Act against the view that it imposes civil liability on an owner in the case of a driver through infraction of the motor law," said Mr. Justice Murphy.

"In both cases the court had before it decisions giving effect to the contrary view by Ontario and Alberta courts based on statutes of those provinces but the appeal pointed out that the British Columbia Statute differed from those on which said decisions were given. It would be entirely improper for this court to refuse to follow the judgments of the Court of Appeal merely because the Supreme Court of Canada has ruled that the Ontario Courts were right in their construction of the Ontario Statute. There was, in my opinion, no evidence that the husband was, on the occasion when the accident occurred, acting as the wife's agent or on her behalf. The action against Mae Richards is dismissed with costs."

A CHALLENGE TO MR. POOLEY

(Continued from page 4)

theatres, it is useless to make Canadian pictures until such time as a market is forced open in Canada for Canadian pictures.

The only way to force open a market for Canadian pictures is to put in an adequate film censor who will reject all unsuitable films. By rejecting an unsuitable film as a whole—that is, to prevent an unsuitable film from being shown in the Province, a market is thus opened for a Canadian or British-made film.

I cannot forget the accusation that has been made by a leading Government official appointed to enforce the laws of our Province, to see that the law-abiding citizens get a square deal. Instead of a square deal, this Government official makes an unfair statement about some of the most respected citizens of the Province and then denies and tries to make the people of the Province believe he made the statement direct to one man.

When I called upon the Hon. R. H. Pooley, at the time the statement was made, it was at the solicitation of a Mr. Gould, who, I understand, was an investigator for the Government.

A list of over 250 business men and merchants of Victoria, giving their moral and financial support to British Picture Producers, was placed before the Hon. Mr. Pooley. The Hon. Mr. Pooley looked over the list, page by page, and said: "You certainly have a bunch."

Over 250 business men and merchants of Victoria will testify to the fact that when I solicited their moral and financial support to British Picture Producers, they were not asked for the purpose of securing their political support so as to solicit the Government for the appointment of a new motion picture censor. The idea of the new censor was to get our man in so that, instead of using the scissors on unsuitable films, the unsuitable films would be rejected as a whole; thus, a market would be created for motion pictures to be made in the Province.

We are not in the United States of America; we are in Canada, a part of the British Empire. Unless the American motion picture industry will take our films after they are made, and will show them in the theatres they own and control in Canada, we have absolutely no market whatsoever for any motion picture we may make.

Head Colds May End in Nasal Catarrh or Flu

Relief in one minute

Head colds may end in loathsome nasal catarrh or dangerous flu. Act quickly at the first sign of any clogged condition, mucous discharge or ringing in the ears. Clear out the germs by applying a little Ely's Cream Balm in the nostrils. This well-known antiseptic cream has great restorative powers; reaches every air passage, drives out germ-laden mucus, clears up head. Relief from head colds in one minute! All druggists sell the famous Ely's Cream Balm. (Adv.)

of the Legislature, where he was protected by law.

I started out to put "clean" motion pictures in the theatres of British Columbia—"Canadian-made and British-made" pictures. I started out to give the great picture industry into British Columbia and I hope to do it.

Now, what have you got to say, Mr. Pooley? Prove your fighting blood and accept my challenge.

J. O. GRAY, L.L.B.

CITY POLICE
WARNED ABOUT
SPEED TRAPS

Pooley Will Not Tolerate Fines
For Revenue Purposes

Warning to municipalities against setting "speed traps" for motorists was issued by Attorney-General Pooley in the Legislature last night. He said several municipalities had made drives against motorists simply to secure revenue and he would not tolerate any such activities.

"If they keep this up they will have their wings clipped," he said.

The House supported Mr. Pooley's amendment to the Motor Act allowing municipalities to place signs on highways to protect school children from traffic, even if the schools are not situated on the highway, but some distance from it.

Another amendment compels all garages to keep records of automobile body repairs and to supply information about them to the police when this is required, and particularly information about blood stains and bullet marks.

In future, under an amendment proposed by Reginald Hayward, Conservative of Victoria, and adopted by the House, it will be unlawful to carry dogs on the running boards of automobiles unless they are protected by some contrivance to prevent them from falling off.

PLAN BY LAW PLAN AGAIN ADVOCATED

Not Possible to Care For Waterworks Extension From Revenue, Says Mayor

Sinking Funds Revert to Former Yield of 5.05 Per Cent

An analysis of what the estimated cost of the year to year work on capital account likely to be required in the upkeep and extension of city waterworks and distribution plant was ordered prepared by the City Council last night, on a motion by Mayor Herbert Huscumb, who revived the question of loan by-laws. His Worship asked that the city engineer prepare a plan showing what work would be required, and what the estimated cost of that work would be in the next ten years.

Leaving the chair to speak to the motion, the Mayor said it was clear that the city could not for long continue the plan of paying for what should be capital expenditures out of revenue. An analysis of what improvements and extensions would be required would prove the wisdom of sinking funds on this phase of the city's operation now, he predicted. The council agreed to have the data prepared.

The council ratified the agreement with Oak Bay and Esquimalt whereby the city wiring department will take over all electrical inspections in the adjoining municipalities by dealing directly with home owners and builders. The city will take ninety per cent of the permit fee to help pay for the cost of the enlarged staff. The plan evoked a mild discussion, but was hailed in the main as the beginning of active co-operation along Greater Victoria lines.

BAND CONCERTS
The council provided for twelve band concerts this summer, to commence on June 9, to be given equally by the bands of the Canadian Scottish and the Fifth Regiment.

The parks committee urged a start on the reconstruction of the playing grounds on Heywood Avenue—Beech Hill Park, with provision for a full-sized football ground, and secured permission to make a start on the plan as time and funds permitted.

The works committee secured authority to round street corners at the northeast intersection of Fort and Government, the southeast corner of Fort and Broad Streets, at a total cost of \$210.

NO NEW MAIN
The council decided for the second time to postpone action on the question of a new and enlarged water main for the James Bay area, but will look into the question of fire protection in the area near the ocean docks. The city engineer reported the flow of water for fire fighting purposes in part of the area inadequate, and the fire wardens were asked to investigate this phase of the question, and to report back to the council.

The question of fire protection investments was reported as back at 5.05 per cent, when the finance committee recommended the purchase of \$3,500 worth of bonds through the Royal Financial Corporation, to yield that figure. Last week the rate in one instance dropped to 4.95 per cent, and estimates were asked by Alderman E. S. Woodward as to why the city should accept less than usual on its sinking fund returns.

PROMOTIONS MADE
The council continued the number of promotions within the city services to fill the gaps left in the ranks by death and other causes. Joseph Wittcomb, senior clerk and assistant in the lands department, was promoted to be city paymaster in the treasury department. B. L. Hewatson becomes accountant in the lands department, and a junior clerk will be added in that office to fill the vacancy left by these steps up.

John A. Harrison becomes assistant city treasurer, collector and relief cashier on probation. H. G. Allen is appointed relief cashier and relief paymaster. T. G. Harris is transferred to the treasury. H. G. Mackenzie takes a step up to Mr. Harris's former work. The work of H. G. Allen and W. R. Clark was appreciated in salary adjustment, and another junior clerk will be added to the City Hall staff. Completing the report, the committee recommended that a motor truck be placed on emergency call at slightly increased remuneration.

The council voted \$500 as a grant to the work of the National Council of Education, sponsoring the convention here on April 5 of delegates from fourteen countries, including British Dominions. Vancouver has voted \$2,500 for the work, it was stated, and the sessions of the convention will be continued in that city after an opening here.

TO CALL TENDERS
The council voted to purchase chemical supplies for fire-fighting purposes from the American La France Company of Toronto, and two steel signal horns from the same firm. Tenders will be invited by the city for 1,500 feet of conduit cable and four street fire alarm boxes, as well as on a motor combination pumper and wagon, with 800 gallons per minute capacity.

The special survey proposals, and the amending zoning by-law, were tabled in connection with the coal storage plant. City Engineer Preston stated that five men had been employed in the last week in period and that was now being pushed on the insulating partitions.

Evidence in Second Davis Trial Closed
The second trial of James Davis for manslaughter adjourned yesterday afternoon until Wednesday morning at 11 o'clock, after Mr. Justice Morrison and the assize jury had heard all the evidence to be presented.

A. M. Johnson, K.C., crown prosecutor, and Stuart Henderson, for the accused, will address the jury to-morrow morning, and the evidence presented yesterday.

"Fruit-a-tives" Stopped Pain and Terrible Dizziness

It seems almost a miracle—the way "Fruit-a-tives" benefits women suffering at the change of life. "I was obliged to go to bed because of the terrible dizziness, pain and weakness," writes Mrs. Onetime Godin of Paquetville, N.B. "During this trying time 'Fruit-a-tives' proved a godsend to me, and now I am in perfect health. Every woman should follow my example and take 'Fruit-a-tives,' and they would surely get the wonderful relief that I did." Try your dealer has this wonderful fruit medicine—25c and 50c a box. (Adv.)

MRS. O. GODIN

Salt Spring

The Women's Institute at Fulford held a successful cabaret and dance in the Institute Hall on Friday evening, March 15.

The hall was decorated in white and green, with Spring flowers on tables arranged around the walls, the centre being reserved for dancing.

Mrs. A. J. Eaton arranged the musical programme and was responsible for the training and setting of the varied items. The first number was a scene from "Lilac Time," in which the following young ladies took part: The Misses, Eleanor Grop, Lois Wilson, Doreen Crofton, Shirley Wilson, Denise Crofton, Tillie Akerman and Edna Morris. This was followed by a song by W. Jefferson entitled "Marylebone Square."

Miss Edna Morris, dainty little dancer, gave the sailors' hornpipe in costume. Bertie Roberts, with dancing chorus, sang "Me and the Man in the Moon," and Laurie Peterson recited "The Shooting of Dan McGrew" with the full setting of an old-time mining saloon.

Dancing continued to the strains of Eaton's orchestra until two o'clock. Refreshments were provided by the Women's Institute.

Reginald Price, of Mereside, Salt Spring Island, has returned from Victoria, where he has been spending a few days the guest of his sister, Mrs. Cecil E. Ley.

Mrs. C. Turner, who has been visiting Vancouver, the guest of General and Mrs. McDonald, has returned to her home near Gauges.

Mr. and Mrs. G. Wilkes are spending a holiday in Victoria, guests at the Strathcona Hotel.

C. W. Baker of Gauges has been re-appointed secretary of the Agricultural Association.

Mrs. A. E. Scopes of Galiano is the guest of Mr. and Mrs. P. L. Crofton of Gauges Hill.

Mr. and Mrs. G. J. Mout entered on Wednesday evening in honor of Miss E. Thornton and Miss E. Martin, who are leaving the Island shortly. Among those present were Mr. and Mrs. E. Parsons, Mr. and Mrs. Allan Cartwright, Miss Thornton, Miss Eileen Martin, and others.

The Ladies' Aid of the United Church, Gauges, held a sale of home cooking, plain and fancy needlework, constant in the lands department. Mr. Mout, Gauges, on Thursday afternoon, March 14. There was a good attendance.

Stallions were: Home cooking, Mrs. Ted Parsons, candy, Mrs. A. Robertson; needlework, Mrs. H. Nobbs; bread and take-stall, Mrs. W. Norton. Tea was served by Mrs. J. Mout and helpers.

Mr. W. Dunbar returned to Gauges on Friday from Victoria, where he has been spending several days.

On Thursday evening the Fulford Badminton team were defeated by the Gauges club in the Central Settlement Hall. Gauges won nine games out of the fourteen played.

Mr. J. Leiper is a visitor on the Island, a guest at the Maple Inn.

A drive for new subscribers to the Lady Minto Hospital will be made by volunteer members of the special financing committee named recently by a public meeting. Enlargement of the list of subscribers is the most practical method of keeping the hospital in operation, the committee has decided.

Mrs. H. O. Allan, Gauges Harbor, has returned from a three weeks' visit to Seattle, where she was the guest of her son, Fred Allan.

Mrs. J. Mout returned on Wednesday from a short visit to Victoria.

Plumbing and Heating.
Drawings and specifications may be seen
at the office of the undersigned.
Lowest or any tender not necessarily ac-
cepted.

C. ELWOOD WATKINS, Architect,
220-221 Central Building.

Speaker Explains And Storm Cloud Passes Over House

A charge by T. D. Pattullo, leader of the Opposition, that Attorney-General Pooley had prompted the speaker during consideration of the Chiropodists' Bill brought the Minister to his feet with a blazing denial and a warning to Mr. Pattullo in the Legislature last night. In the absence of J. R. Rutledge, H. F. Kergin moved the adoption of the report on the bill. He then pointed out that it was given third reading in the absence of the speaker. Mr. Speaker Jones replied: "That is placed on the orders for third reading at the next sitting." Mr. Pattullo was at once on his feet objecting to the

Speaker changing a motion of a member on the suggestion of the Attorney-General.

"Be careful. You can't threaten me that way," remarked Mr. Pooley. "Wait a minute. Don't let us get excited." He then recalled how the Attorney-General had walked up to the speaker after the motion and the speaker had announced in a different manner to that in which the member moved.

"I never said a word about the bill," said Mr. Pooley.

"I must accept that as I have no means of disproving it," said Mr. Pattullo.

Mr. Speaker Jones relieved the situation by stating the Attorney-General did not mention the bill. And the storm cloud passed over.

The bill got first reading.

Doctor—Now, take this dark-colored bottle when you get up, and this oily mixture the last thing before you go to bed.

Patient (from New Jersey)—Yeah, but—

Doctor—Is there anything you don't understand?

Patient—Yeah, what's the idea of takin' the oily medicine the latest?

SEALED TENDERS will be received at the office of Chief Engineer, Winnipeg, until 12 o'clock noon Monday, April 1, 1929, for replacement of one hundred and twenty-five wooden culverts by concrete pipe and construction of five reinforced concrete box culverts on Alberta Subdivision of Kamour Division and on the Smithers Division.

Plans, specifications and form of contract may be seen at the office of the Engineer at the offices of District Engineers at Vancouver, Edmonton, Division Engineers at Prince Rupert, Kamour and Calgary. Acting District Engineer, Victoria, and Canadian National Railway agent, Prince Rupert.

Tenders will not be considered unless made on form supplied by the railways company and accompanied by an accepted cheque on a chartered bank equal to five per cent of the value of the work, payable to the order of the Treasurer of Canadian National Railways.

The lowest or any tender not necessarily accepted.

W. A. KINGLAND, General Manager, Winnipeg, Man.

MARCH 18th, 1929

WATER NOTICE
STORAGE
TAKE NOTICE THAT VANCOUVER ISLAND POWER COMPANY LIMITED, whose address is 1018 Langley Street, Victoria, British Columbia, will apply for a license for the storage of 238,000 acre feet of water out of Upper Campbell Lake, Campbell River, Vancouver Island, British Columbia, which flows in a northerly direction and drains into the Campbell River Post Office, Sayward District. The storage dam will be located at the natural outlet of Upper Campbell Lake. The capacity of the reservoir to be created is about 123,000 acre feet and it will flood about 3,500 acres of land. The water will be diverted from the stream at a point about 1,000 feet south of the south boundary of block 129 and north boundary of block 120, Comox District, and will be used for power purposes upon the land described as lots 31 and 32, Sayward District, Vancouver Island, contiguous upon the completion of final surveys. The license applied for is to supplement a right to take and use water as per application of even date. This notice was posted on the ground on the fifteenth day of February, 1929. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Controller of Water Rights, Parliament Buildings, Victoria, B.C. within thirty days after the first appearance of this notice in a local newspaper. The territory within which the applicant will exercise its powers in respect of the undertaking will be throughout Vancouver Island. The date of the first publication of this notice is February 26, 1929.

STORAGE
TAKE NOTICE THAT VANCOUVER ISLAND POWER COMPANY LIMITED, whose address is 1018 Langley Street, Victoria, British Columbia, will apply for a license for the storage of 238,000 acre feet of water out of Upper Campbell Lake, Campbell River, Vancouver Island, British Columbia, which flows in a northerly direction and drains into the Campbell River Post Office, Sayward District. The storage dam will be located at the natural outlet of Upper Campbell Lake. The capacity of the reservoir to be created is about 123,000 acre feet and it will flood about 3,500 acres of land. The water will be diverted from the stream at a point about 1,000 feet south of the south boundary of block 129 and north boundary of block 120, Comox District, and will be used for power purposes upon the land described as lots 31 and 32, Sayward District, Vancouver Island, contiguous upon the completion of final surveys. The license applied for is to supplement a right to take and use water as per application of even date. This notice was posted on the ground on the fifteenth day of February, 1929. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Controller of Water Rights, Parliament Buildings, Victoria, B.C. within thirty days after the first appearance of this notice in a local newspaper. The territory within which the applicant will exercise its powers in respect of the undertaking will be throughout Vancouver Island. The date of the first publication of this notice is February 26, 1929.

OBITUARY

Funeral services were held at McCall Bros. Funeral Home yesterday over the late William White, a resident of Victoria for the last three months. Interment was made in Royal Oak Burial Park, with the five sons and a son-in-law, A. E. Matcham, acting as pallbearers. The late Mr. White was born in Huntingdon, in 1849, and moved with his parents to Barclay, Iowa, in 1855. His widow and eight children survive—Mrs. C. W. Lamb, Rainy River; John White, Unity, Sask.; E. C. White, Long Beach, Cal.; Russell White, Vancouver; W. W. White, Grand Coulee; D. E. White, Regina, and Mrs. A. E. Matcham, Victoria, B.C.

There passed away on Tuesday morning at an early hour at the Royal Jubilee Hospital, Isabel Agnes Young, aged two years, daughter of Mr. and Mrs. William A. Young, of Orville, California. The little girl was born in Orville and is mourned by her parents.

FORD EFFICIENCY SHOWS BIG GAIN; OILS LEAD TRADING

Montreal, March 19.—Gain of 33 per cent in labor efficiency and better than 20 per cent increase in actual production beyond previously rated capacity, are factors responsible for materially enhanced earnings of Ford Motor Co. of Canada Limited.

Current daily production of 600 cars and trucks is being accomplished with total employment of about 6,000 workmen, or 2,000 fewer than were required to produce 500 cars and trucks a day last August.

Efficiency has been increased to such an extent that the ratio of employees to daily output has been reduced to 12 and 1, from 18 to 1 in August last year. Attainment of this efficiency followed drastic steps taken last fall when on capacity production of 500 units a day, little or no profits were shown. Full effect is now being felt, and it is expected that profits on Model A will be as wide a margin as on the old models.

Toronto, March 19.—Reorganization of the capital of the Massey-Harris Company was approved by the shareholders at a special meeting held here Monday afternoon. The proposed changes provide that the whole of the outstanding seven per cent cumulative preference shares will be called for redemption. New five per cent convertible preference shares will be issued which the present preferred share holders will have the privilege of accepting on a share basis instead of the cash redemption price.

Montreal, March 19.—"Just when the Canadian stock markets in general show a marked tendency to enter a dull period, a number of striking developments in the Turner Valley, bringing in their wake a real boom in the oil stocks, the widespread interest in this class of securities being accompanied by a number of spectacular companies operating in this area," The Gazette to-day says.

"The fact that oil stocks in the New York market have also come into favor has acted as a stimulus to the trading in the Canadian oil stocks. And largely results from the fact that recent developments in the petroleum industry in the United States have been decidedly favorable.

"Dahousie has been particularly strong this week among the Turner Valley group and in this connection it is interesting to note that this company is controlled by Royalties, which in turn, is controlled by the Imperial Oil. Footlights another of the busy performers and this stock is also largely held by Royalties. Imperial Oil also stands to benefit by the swelling of oil stocks, and this is indicated by Home Oil, whose stock has advanced from 3.00 to over 25.00 per share in a comparatively short time.

"The appreciation in value of these Western oil securities have been so rapid, however, that many brokers are adopting an extremely cautious position at current levels and are now refusing orders on other than a cash basis."

Mar-Jon Oil Company Limited

Head Office, 307 and 308 Dominion Building, Vancouver, B.C.
Incorporated under the Laws of the Dominion of Canada
Authorized Capital 1,000,000 Shares, No Par Value
Offering 200,000 Shares at \$1.00 Per Share

BOARD OF DIRECTORS
A. F. Arnold, President
G. N. McNeil, Vice-President
E. M. Craig, Secretary
R. G. Harding, Treasurer
M. H. Howell, Secretary

PROPERTY
Mar-Jon Oil Company Limited holds 2,500 acres in the famous Turner Valley, British Columbia, and is approximately one-third of the way through the development of this property. The property is located on the apex of the arch of the Turner Valley fold, and is approximately one-third of the way through the development of this property. The property is located on the apex of the arch of the Turner Valley fold, and is approximately one-third of the way through the development of this property.

VENDORS POSITION
The Vendors have turned over to the Company leases to the property for which they received cash, but accepted 260,000 shares of stock in full payment. All vendors' stock is to be held in escrow until such time as this company is fully financed. Therefore vendors cannot profit until production is reached.

DEVELOPMENT
It is proposed to drill the first well on L.D. 9, Section 28, Township 18, Range 2, west of the Fifth Meridian. According to the best geological information available, this property is located on the apex of the arch of the Turner Valley fold, and is approximately one-third of the way through the development of this property. The property is located on the apex of the arch of the Turner Valley fold, and is approximately one-third of the way through the development of this property.

REMARKS
Turner Valley is a proven oil field and there is no more promising section than that in which Mar-Jon is located. If oil is struck handsome profits will be made. Everything that can be done to make Mar-Jon a success will be done. To avoid Mar-Jon a success will be done. To avoid Mar-Jon a success will be done.

TORONTO MINING MARKET

Toronto, March 19.—Reeves-McDonald was approved for listing on the board of the Standard Mining Exchange and will be called for trading in the near future.

(Over H. E. Hunning's Leased Wire)

Toronto, March 19.—Solloway, Mills and Company to-day say: Interest on the local market again is almost exclusively in the Western oil stocks. Solloway, Mills and Company's special oil fields reports here to-day are:

Nothing new has developed at the McLeod No. 4 which was last night drilled to a depth of 4,915 feet, about 1,100 feet in the limestone. The formation continued very much the same as the previous day, in alternating bands of hard and soft formation. It was so, however, that there was no interference in the gas flow. At McLeod No. 3 very little progress has been made, for the drill is still pounding on iron believed to be the base of the hole. McLeod Number 1 was kept to its former production. Illinois-Alberta No. 2 was continuing drilling while waiting for the casing which is to be run and cemented at the well. The casing has been shipped, but it is not expected to arrive for a few days.

Mayland No. 1 was 5,145 feet deep yesterday, and about 150 feet from the bottom. It is likely that the formation will be reached a few feet shallower than that.

There were no important changes at either Royalty No. 1 or No. 18, both of which are drilling the line and are obtaining good gas flows.

A new hole was being dug at Calmont No. 1 when last night was received from officials of the company Monday night. When the tools were pulled from the well during the day, after the old hole had been cleaned to the bottom, a flow of light crude oil followed. There was reported to be a slightly increased flow of oil in the well, though the gas flow only increased very slightly when the hole had been cleared. The hole has been drilled down to a hard capping and it was here that the gas flow was obtained which caused the tools to get lodged in the hole before Christmas.

Margal Oil Limited, which has acquired forty acres in the same section as Home No. 1 in Turner Valley, was fully subscribed within twenty-four hours of its stock issue, being offered to the public last week. In addition to its holdings in Turner Valley, it has ten thousand acres in the Wainwright Field, having taken over some of the assets of the British Petroleum Limited. A controlling interest in Margal Oil was recently bought by Miller, Court and Company and Montreal associates.

THE TINYMITES

STORY BY HAL COCHRAN—PICTURES BY KNICK

READ THE STORY, THEN COLOR THE PICTURE

The Tynmites eyed the funny man, as here and there he lightly ran. Then Scouty whispered, "My, he's odd. His head is made of coal. This little mine's his home, no doubt, but I should think that he'd run out. No one could ever find him if he'd fall down in a hole."

Then Clowny added, "I hope he is just as friendly as can be. He'll make a real good playmate if we find that he is kind. Let's all jump out and about 'Hello' and very shortly we will know just who this little fellow is. Come on, if you don't mind."

"Oh, he can't hurt us," Coppy cried. He then jumped to the coal man's side, and with a very friendly smile, said, "Greetings, little man. We have not come to start a row. Let's all get friendly, here and now. If you are looking for some fun, we'll help you all we can."

"Well howdy lads," the coal man snapped. "I guess, like me, you boys are trapped down in the crazy coal mine. But I know how to get out. Now, all of you stand where you are. I'll whistle loudly, all the bunch began to shout.

They heard a rumble right near by. "Thank goodness," he exclaimed, "we're going to leave this stuffy place." The car then drifted into sight. This rather pleased each Tynmite. Upon the car sat other men, a smile on each one's face.

"All hop aboard," the coal men cried. "We're going to take a little ride. But, wait! Will someone push this car?" And Scouty yelled, "I will!" "Me, too," spoke Coppy. "I'll be fun, to give a little to everyone." They shortly pushed real hard and started up a little hill.

"Well howdy lads," the coal man

To-morrow's Horoscope

WEDNESDAY, MARCH 20, 1929

Benefic aspects rule to-day in planetary government according to astrology. The

Influences should be stimulating and even illuminating. There is a sign supposed to make keen the mental vision of one's affairs aiding wisely in making investments or safeguarding earnings. Children are exceedingly fortunate at this time, which should be favorable for their wide development in mind and body.

Honesty and truth have a better chance to-day than they have when the stars are in sinister aspect. It is a time to push business affairs. This should be a most auspicious day for seeking employment or even for asking increase of salary. Persons in authority to-day are likely to

be unusually kind in their attitude toward those whose destinies they control. The way is most promising for even the highest executives in the government who will have opportunities to make history that is amazing, the seers prophesy. All the signs seem to indicate for the United States an era of amazing scope and marvelous achievement. The golden

age of America has come, according to occultists. Under this direction of the stars women should pursue beaten paths. The way is favorable to clubs and cultural organizations of every sort. Persons whose birthday it is have the augurs of pleasant work, possible travel and even new romance.

Children born on this day probably will be artistic and also fond of reform. They are subjects of Pisces, and Aries has some influence since they are near the cusp. Success and pleasure usually attend these zodiacs, but they are often unfortunate in love.
